## **DETAILED ACTION**

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species:

Species I – Figure 2

Species II – Figure 4

Species III – Figure 7.

Furthermore if applicant elects Species III then a further election of species must be made as follows:

Species IV - The applicant must elect one of Figures 5a, 5b or 5c

Species V – The applicant must elect one of Figures 6a, 6b or 6c.

The species are independent or distinct because Figure 2 shows an air gap spacer with indentation on an underside and has a diamond shaped pattern. Figure 4 shows an air gap spacer having first and second faces with spacer elements position in between. Figure 7 shows an air gap spacer with protrusions extending from the planar surface. Figures 5 a, b, and c shows different shaped spaces and Figures 6 a, b, and c show different shaped protrusions.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Art Unit: 3635

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

A telephone call was made to Mr. Porcello on 03/21/2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jessica Laux whose telephone number is 571-272-8228. The examiner can normally be reached on Monday thru Friday, 8:30am to 4:00pm (est).
